SUMMARY

Artificial Intelligence undergraduate and aspiring software engineer with hands-on experience in ASP.NET, C#, Python, SQL, full-stack web development, machine learning, deep learning, Generative AI, and Agentic AI. Focused on building practical software and AI-integrated applications that improve workflows and reduce manual effort.

EXPERIENCE

Community Member | Computer Science Society, KUST, UMT

MAY 2026 – PRESENT

Contribute to technical community activities and manage hackathons and related innovation events.

Secondary Teacher | Shinning Star Academy

FEB 2025 – PRESENT

Teach Computer Science at secondary level and develop students' programming, computing, and problem-solving foundations.

TECHNICAL SKILLS

AI & MACHINE LEARNING: Machine Learning, Deep Learning, Generative AI, Agentic AI, Data Mining, Python

WEB DEVELOPMENT: HTML, CSS, Full Stack Development, E-commerce Web Development

BACKEND & DATABASES: ASP.NET, C#, SQL, SQL Server, Object-Oriented Programming

AI TOOLS & DEPLOYMENT: n8n, AI Application Integration

SOFTWARE ENGINEERING: C++, Data Structures, Git, GitHub, Problem Solving

SELECTED PROJECTS

Learning Management System

C++ • OOP • Data Structures • SQL

Management solution for streamlining learning-related workflows and academic processes.

Visitors Route Management System

C# • ASP.NET • SQL

Structured system for managing visitor routes and related operational processes.

Event Management System

C# • SQL • Web Development

Application supporting event organization and management workflows.

Movie Recommendation Chatbot

Python • Generative AI • ML • Agentic AI

AI chatbot that recommends movies from user queries, preferences, and contextual information.

FAQs Chatbot

Python • Generative AI • Agentic AI

Intelligent chatbot for retrieving and delivering relevant answers to user questions.

Multimodal Clinical Outcome Prediction

Python • ML • Deep Learning • Data Mining

Multimodal predictive system for analyzing data to support clinical outcome prediction.

E-commerce Website

HTML • CSS • C# • SQL

Web application supporting product management and online business operations.

EDUCATION

BS in Artificial Intelligence

University of Management & Technology (UMT) | 2023 – 2027 (Expected)

Intermediate in Computer Science (ICS) – Physics

Superior College | 2021 – 2023

Matriculation in Computer Science

Allied School | Completed 2021

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Soft Skills (OEC, HEC & Europe Education System) • Git & GitHub Workshop (UMT, KUST) • LaTeX & AI Writing Workshop (KUST, UMT) • Teaching Internship Certificate (Shinning Star Academy)

Recognition: CreateX Hackathon Participant • Student Voice Leader Award • Dean's Award • Merit Award / Merit List
